Available for Spring 2027 Co-op

EDUCATION & SKILLS

University of Cincinnati · Bachelor of Science + Master of Engineering, Computer Science Expected May 2029

Classes: Discrete Math, Computer Systems, Data Structures

Skills: C++, Python, Go, Bash, SQL · Linux, Git, Neovim, Codex, Tailscale, OpenMP

WORK EXPERIENCE

Software Engineer Intern · Kernel (YC S25) May - August 2026

- Owned Programmatic API Key Generation - SDK, MCP, CLI, Dashboard implementations
- Created Kernel's Terraform Provider (**Infrastructure as Code**) from scratch
- Reduced Docker Image Size by 300MB and build time by 50s across images
- Saved **\$23,045**/year by optimizing CI/CD pipelines
- Prototyped a web browser onboarding flow via the CLI (importing browser settings)

Sales Consultant · RealNZ Dec 2023 - Sept 2024
Queenstown, New Zealand

- Closed **800+** sales worth **\$250,000+** (Top Sales Consultant, Summer '24)
- Reduced Whakatipu Vessel data entry time by **11%** with **Python**

Founder & Owner · Shralp Jersey Oct 2020 - March 2023
Mountain Bike (MTB) Jersey on Amazon India

- Identified market opportunity in underserved Direct to Consumer Indian MTB apparel space
- Scaled to **#1 Downhill MTB Jersey Brand** in India through organic traffic and word of mouth

PROJECTS

Reinforcement Learning · Pufferlib, C, CUDA Sept 2026

- Built a self-play CUDA C Slither.io environment (3M SPS) at **ilya.as/slither**
- Building an Environment (5M SPS) to beat the Bounce World Record Speedrun (2 of 11 levels complete) at **ilya.as/bounce**

kstack · Kotlin, Android, Tailscale SSH Sept 2026

- Built an e-ink Android client for driving a fleet of **cli** agents over persistent Tailscale SSH connections, mapping herdr RPCs to a terminal UI for agent control

Bearcat Motorsports EV Battery Management System · C++, Python Sept 2025

- Built Python **UART** interface to **LTC6813 BMS IC** with stateful file-per-dataset handshake and RX buffer flushing, for real-time battery data logging for **FSAE EV** testing

PLC Scheduler · Python, GitHub Actions Jan 2026

- Parsed **Excel** Learning Center schedule into an **RFC 5545 .ics** feed, syncing to Calendar Apps

READING & MAJOR INFLUENCES

- Rich Hickey's Simple Made Easy
- Rich Hickey's Hammock Driven Development
- Efron Licht's Starting Systems Programming Series
- Boot.dev's Data Analysis, Backend, DevOps Paths
- The Algorithm
- The Goal
- Computer Systems: APP (in-progress)
- Efron Licht's Backend Basics Series
- The Manga Guide to Databases
- Inference Engineering

LEADERSHIP

National Level Downhill Mountain Biker 2019 - 2023

- Assistant Trail Builder at **Largest Mountain Bike Event** in India to date
- Founded and grew a mountain biking community in Mumbai and built own trail network with 6 trails among 2 hills over 2 years
